

Incremental Model

Phase 1: Base User Design

Create page for returning users and new user

Phase 2:

Create page for student users that log in (new/returning) that shows a list of pages (user info, class schedule, register for classes)

“.....”, “.....” for instructor users (to look at roster, search classes, etc.)

Phase 3:

Create the database of user, classes

Phase 4:

Connect the classes db to the list of classes page, as well as integrating the users created in the db

Phase 5:

Create the ui for each of the pages and test the software

Phase 6:

Ship it out for use
